

# *System Council U-4 Negotiation News*

February 15, 2008

Volume #1 Number #2

The System Council Meeting was held February 7<sup>th</sup> through February 10<sup>th</sup>. The main thrust of the meeting was the selection of Contract Proposals. The System Committee would like to thank all of the Membership for their participation in this process and the overwhelming input of proposals to your Local Unions.

The System Committee would also like to thank all the System Council Delegates for their participation in the selection process, during the respective caucus meetings.

The caucuses that were held were as follows; Power Delivery, Distribution, Power Generation, Nuclear and Miscellaneous. The Secretary read the basics that the System Committee had previously identified.

The System Committee will now compile the basics and incorporate them along with the proposals selected by the Delegates. All of those selected would then be included in the final package presented to the Company in the upcoming negotiations.

Once again, the System Committee would like to thank the Membership for their participation in the Contract Proposal process; your input in the form of proposals provided your Officers and Delegates guidance during the selection process of issues. These issues are important to you in achieving a higher standard of living and a well rounded quality of life.

The System Committee would like to remind everyone to stay focused on always working safe; "every day on every job."
