

System Council U-4 Negotiation News

April 6, 2009

Volume #1 Number #26

The System Committee and the Company held a “Fatigue Rule” kick off meeting on Thursday, April 2, 2009, as scheduled. The “Fatigue Rule Committee” exchanged documents, arranged a future schedule and set the ground rules to meet their commitments going forward.

There has been a strong rumor that the Company is postponing the Power Systems Realignment roll until after October. This has not been conveyed to the Business Managers Office or the System Committee. Staffing levels are scheduled to be announced on Friday April 10, 2009. Roll Central can be contacted by phone at 561 - 691-7078.

The Company and the System Committee were last engaged in formal discussions on March 16, 2009. In that past meeting the Union indicated they were willing to continue discussions, but the Company has not called to schedule any formal time for negotiations discussions.

Support the recently launched “SC-U4 Heighten Safety Awareness Initiative” underway. Safety is now and will always remain our number 1 job focus.
