

SCU-4

**05/13/2010**

Today, the Company and Union signed a Memorandum Of Understanding (MOU) for the Cape Canaveral Plant (PCC) regarding the Modernization. This jointly developed MOU will provide those affected employees at PCC an opportunity to be temporarily re-assigned to other locations while maintaining their Cape Canaveral status. These employees will be returned to PCC as those classifications are required. Both parties agree this MOU provides the least amount of impact to PGD employees and their families while maintaining a flexible workforce.
